How To View Administrative Tools In Windows 8

1) If you are not already go to the "Start Screen". ***Note: This is the screen that has all of the Tiles on it. Not the "Desktop View".***

2) Now press the "Windows Key" and the letter "I" (Note that is the letter i)

3) On the right-hand side under the word "Settings" you should see the word "Tiles" click on that.

4) Now under the words "Show Administrative Tools" move the slider to "On"

5) Once you have done that go back to the "Start Screen" and you should now see all the Administrative Tools that you were used to seeing.
